

The Aurora Demo Instance is Here!

This is a special purpose instance that was created with the singular goal of allowing people to experience the redesigned UI/UX. It has data and roles from “Demo Builder” that has been upgraded to a 12.2 base and then had the 12.3 navigation applied to it. Truly some out-of-the-box thinking from our Engineering team. All the persona’s listed below are Read Only. Therefore, things like the quick create “+” icon won’t respond to clicks and menu options for creating objects (e.g. “Create Account”, “Import Contacts”) will not be displayed. However, we believe everyone will still be able to fully experience the redesigned UI/UX.

The persona’s to access the demo instance including ID and PW can be found in the table below.

All the persona’s listed are Read Only. Therefore, things like the quick create “+” icon won’t respond to clicks and menu options for creating objects (e.g. “Create Account”, “Import Contacts”) will not be displayed. However, we believe everyone will still be able to fully experience the redesigned UI/UX.

| First Name | Last Name | ID | PW | Title | Reports To |

| Sally | Bronsen | sally | sally | Senior Account Rep | Sarah Smith |
| Max | Jensen | max | max | Account Rep | Sarah Smith |
| Will | Westin | will | will | Sales Manager East | Jim Brennan |

How to login?

1. Click on this link: <https://aurorademo.msqa.sugarcrm.com>
2. Choose your persona/ID (e.g. Jim from sales)
3. Refer to the table above for the password (e.g. if you chose Jim, your user name will be jim and password jim).

The screenshot shows the login interface for the SugarCRM demo instance. At the top is the SugarCRM logo. Below it are two input fields: the first for the username, which has 'jim' entered, and the second for the password, which has three dots indicating it is masked. Below the password field are two links: 'Forgot Password?' and a blue 'Log In' button.
